

# Skwids®

## Join Us in an Exciting New Adventure with Skwids!

We're thrilled to introduce the all-new Skwids app – a fun, teacher-designed early learning experience for preschool through first grade! Skwids takes learning on an adventure through the Skwids Zoo, where kids explore math, reading, science, and social studies. Parents can enjoy peace of mind with our safe, ad-free environment, full audio support for non-readers and a new, improved dashboard to track their child's proof of learning progress.

## Bigger, Better, and Now on Mobile!

We're moving Skwids to an upgraded, mobile-friendly app so your child can enjoy all-new features right from your tablet or phone! This change lets us bring you the very best of Skwids with a smoother, more interactive experience designed just for mobile devices.

## Why We're Going App-Only

To give kids the most fun, seamless learning experience, Skwids is now available exclusively on tablets and mobile devices. This means we're waving goodbye to our website format, but don't worry – all the Skwids fun (and more!) is now just a tap away on your mobile device!

## Ready to Get Started?

Download the Skwids app and dive into an adventure of learning and play— all with the convenience of mobile!

Thank you for being part of the Skwids family and for choosing us to support your child's learning journey. We can't wait for you to explore all the new adventures in Skwids!

## What's New in Skwids:

- Engaging Learning Paths with Progress Tracking
- Lessons Intentionally Designed for Each Age and Grade Level
- Enhanced Parent Dashboard to Easily Track Progress
- Brand-New Animated Skwids Characters and Videos
- New Flip Card Games and Exciting Future Additions
